EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Martin D. Moynihan on March 23, 2007.

The application has been amended as follows:

The following sentence has been entered as the first sentence of the specification:

-- This application claims the benefit of U.S. Provisional Application Ser. No. 60/406,751, filed August 29, 2002, which is herein incorporated by reference for all intents and purposes. --

Reasons for Allowance

Claims 1-8, 11-18, 20-40, 43-46, 55, and 56 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Sako, taken alone or in combination of other references, does not teach or fairly suggest a logic circuit comprising, among other things, that wherein said outer diffusion connection of said p-type transistor network and said outer diffusion connection of said n-type transistor network

are separately configured, such that, said p-type transistor network and said n-type transistor network share a single common diffusion logic terminal (claims 1 and 33); wherein for each of said logic elements each of said logic terminals is separately configurable to serve as a logic output (claim 16); and wherein each of said logic terminals is separately configurable to serve as a logic output (claim 55), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
